NOTE: Whether intentional or not, prejudicing has occurred largely because of the people on this list. Many have committed crimes and been dishonest. Many have looked away from the misconduct of their peers. Some are only here by association. If you are on this list, and believe that you had no involvement in the prejudicing against Jeffrey L. Clemens, then state your case and provide your evidence to Access To The Courts, who will then footnote your name as not a participant in the criminalization of an innocent man.
